

Mathematics
Year 9 Homework

Subject: Mathematics

Term: 4

When is homework due?	How to complete Homework
All year 9 Set and submit <u>Wednesday</u>	Homework is set weekly by class teachers on Mathswatch. This will be a combination of prior learning and current practice. To access this, students will need to use their login details. Homework should take 20-30 minutes on average. We encourage students to watch the videos and make notes to ensure the homework best represents their understanding. Students may also be set additional paper based work to help consolidate/extend learning.
Learning Journey for Term 1	1). Using Measures 2). Equations, Expressions & Formulae 3) Graphs

Password: Aylesford

Example:

Name: Joshua

Surname: Aka

Username: Jaka@aylesfordkent

Password: Aylesford

Maths Homework Expectations

All Mathswatch questions set have videos for students to watch to support their understanding and facilitate achieving their best scores.

Student should aim to achieve a minimum of 70% each week to demonstrate a secure understanding of the core knowledge being studied.

Helpful websites for revision?

If extra support, beyond the Mathswatch videos is required then the following would be useful:

- BBC Bitesize – This has step by step worked examples and interactive practice questions.
- Corbett Maths – Has videos and worksheets available with answers to further consolidate understanding.
